

2017 Conference on Function Algebras

Organizer: Norio Niwa (Nihon University)

Dates: October 20, 2017 (Fri) 14:15 ~ October 22, 2017 (Sun) 12:45

Venue: Room No. 542, Building No. 5, 4th floor (Oct 20)

Room No. 512, Building No. 5, 1st floor (Oct 21–22)

School of Pharmacy, Nihon University (Funabashi, Chiba Prefecture)

Program

October 20 (Fri)

14:15 – 14:55 Keiichi Watanabe (Niigata University)

Title : **On a counterpart to the Riesz representation theorem in the Möbius gyrovector space**

15:10 – 15:30 Yuta Enami (Department of Mathematics, Niigata University)

Title : **Bishop-Phelps-Bollobás property and property β an introduction of a paper by Acosta, Aron, García and Maestre**

15:45 – 16:05 Yoshiaki Suzuki (Department of Mathematics, Niigata University)

Title : **Linear isometries of S^p , an introduction of a paper by W. P. Novinger and D. M. Oberlin**

16:20 – 17:00 Takeshi Miura (Niigata University)

Title : **Isometries on C^1 -spaces of $C(X)$ -valued functions**

October 21 (Sat)

9:30 – 10:10 Young Joo Lee (Chonnam National University)

Title : **Kernels and ranks of Hankel operators on the Dirichlet spaces**

10:25 – 11:05 Jongho Yang (Korea University)

Title : **Carleson measure criterion for compact differences of weighted composition operators**

11:20 – 12:00 Atte Reijonen (University of Eastern Finland)

Title : **Derivatives of inner functions in weighted Bergman spaces**

Lunch break

13:35 – 14:15 Yasuo Iida (Kanazawa Medical University)

Title : **Bounded subsets of classes $M^p(X)$ of holomorphic functions**

14:30 – 15:10 Kazuhiro Kawamura (Institute of Mathematics, University of Tsukuba)

Title : **Higher dimensional non-amenability of Lipschitz algebras**

15:25 – 16:05 Osamu Hatori (Niigata University)

Title : **On Example 8 of the paper of Jarosz and Pathak**

16:20 – 17:00 Lajos Molnár (University of Szeged)

Title : **Strength functions: a strange function space associated to positive semidefinite operators**

October 22 (Sun)

9:30 – 10:10 Kou Hei Izuchi (Yamaguchi University)

Title : **Cyclic vectors in Fock type spaces in multi-variable case**

10:25 – 11:05 Rumi Shindo Togashi (National Institute of Technology, Nagaoka College)

Title : **Weighted composition operators and n -tuple multiplicativity**

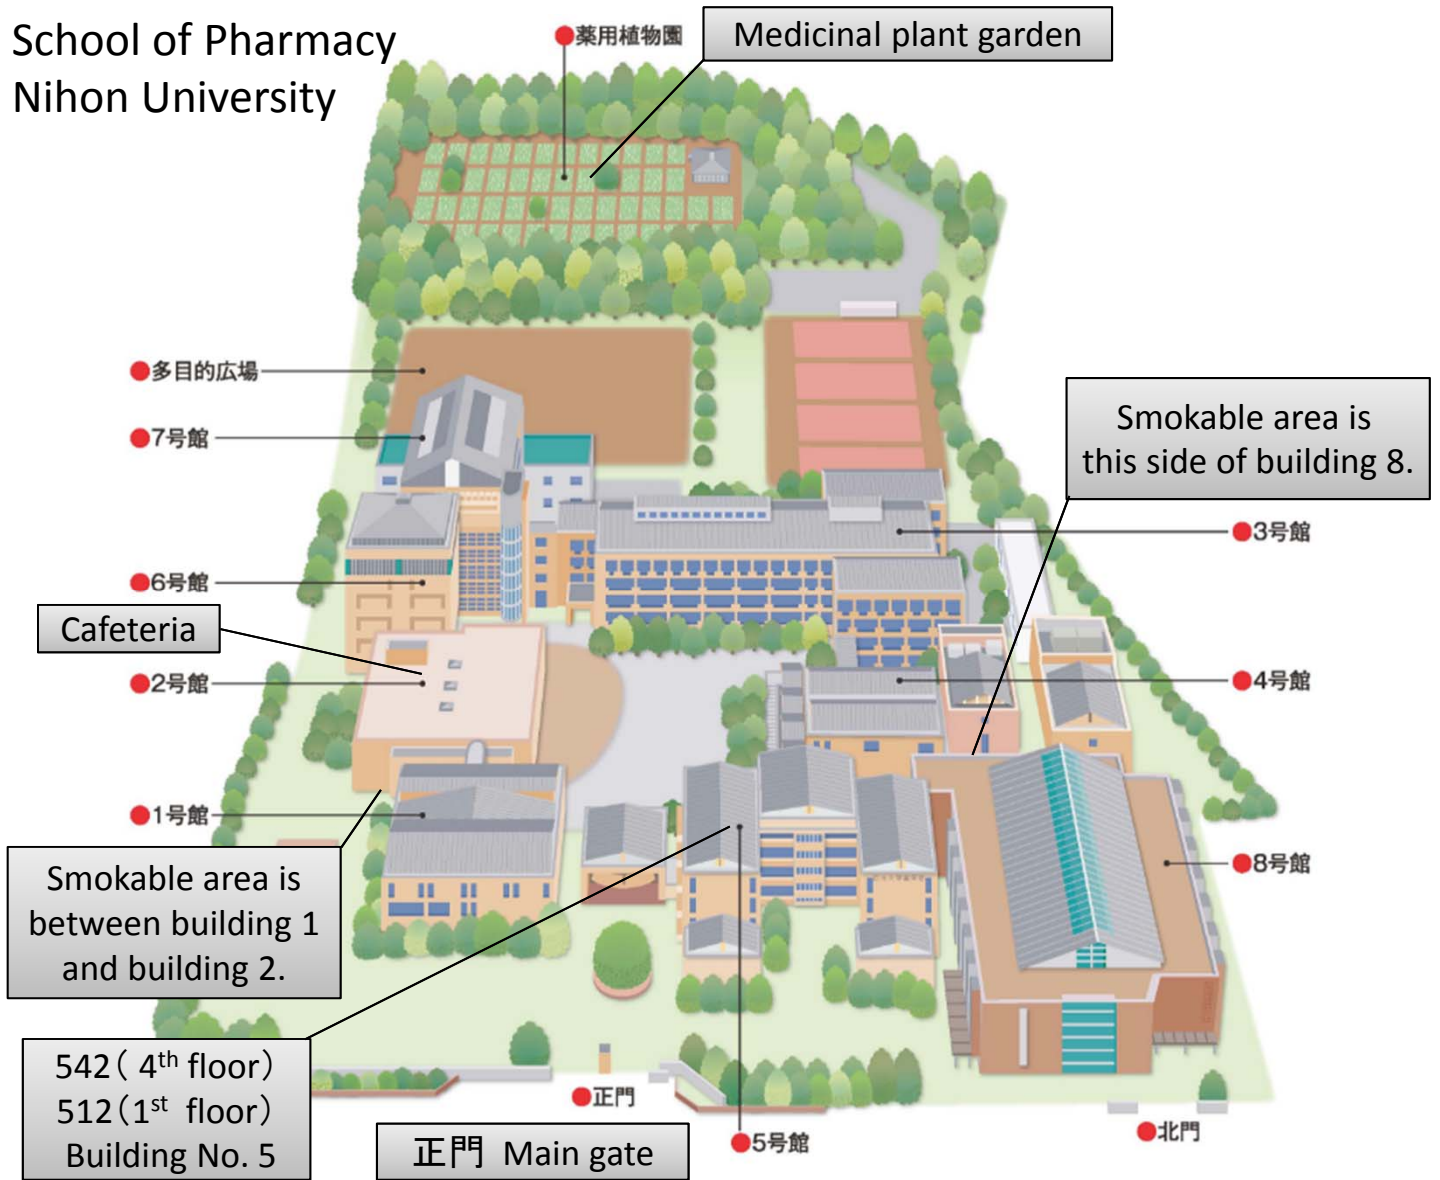

11:20 – 12:00 Shûichi Ohno (Nippon Institute of Technology)

Title : **Operator theoretic differences between weighted Bergman and Dirichlet spaces**

12:15 – 12:45 Keiji Izuchi (Niigata University)

Title : **Finite Rudin type invariant subspaces**
